LIGHTHOUSE LABS GRADUATE

Data Science Bootcamp

MANIFESTO OF THE DATA-DRIVEN THINKER

"We don't create models that perform well for a brief period of time.

Instead, we innovate models that stand the test of time.

We don't just create good looking visualizations.

Instead, we provide compelling and actionable insights that are shaping the world.

We are not only just individuals. We are a community of data professionals."

To certify proficiency in the fundamental data science skills involving data wrangling, data visualization, machine learning and deep learning, and data engineering.

This Diploma is awarded to:

Omolaraeni Onipede
